Prospect of an Abundance of the most Delicious Fish, the Salmon.

It is well known that not a great many years ago the rivers of New England and tributaries of Lake Champlain and Lake Ontario abounded with salmon, during the proper season of the year, to such an extent that apprentices, paupers in workhouses, and othersobjected to being fed with them more than three times a week. From the St. Croix to the Connecticut, inclusive, on the seaboard, the numbers of salmon were very great, and they were but little less com-mon in the lakes just mentioned. At salmon occur being a few streams in Maine. The causes of their partial extermination are to be found in the ereclaid, are covered up ; in indiscriminate

These eggs were duly packed up by the middle of January last, and delivered to Mr. Rudolf Hessel, an experienced fish-breeder of Offenburg, Baden, who sailed with them on board the Bremen steamer Weser, which left for New York on the 18th, arriving on Tuesday, the 4th of February. By the courtesy of the officers of the ship, who rendered every facility in their power, the boxes contained the eggs were placed in a small place on deck, where they could be easily attended to by Mr. Hessel. They filled 60 boxes, occupying about seven tuns of measurement. The unprecedentedly warm weather which prevailed in Germany during the last of 1872 and prior to the sailing of the Weser, was very unfavorable to the success of the experiment, as it hurried forward the hatching of the eggs, and stride in some sections of New England. rendered them much more delicate than A New Hampshire minister, while pormajority will be saved. EXTRAORDINARY CURES, - We have read many accounts of extraordinary cures by Dr. Walker's California VINEGAR BITTERS, which have seemed credible. We are inclined to believe them, as many of those who vouch for them are persons whose veracity we can guarantee. The newspapers teem with testimonials of this character, and there s an air of praticularity and of truth bout them which cannot be resisted. One manifest superiority the Vinegar Betters possesses over other Alterative and Tonic preparations. It contains none of the burning fluids with which most advertised Bitters are impregnat-It cannot create fever. A CURE FOR

CONSUMPTION. For the cure of this distressing disease there has keen no modicine yet discovered that can show more evidence of real merit than ALLEN'S LUNG BALSAM. This unequaled expectorant for curing Consumption, and all diseases leading to it, such as affections of the throat, lungs, and all diseases of the pulmonary organs, is introduced to the suffering public after its merits for the cure of such diseases have been fully tested by the medical faculty. The Balsam is consequently, recommended by physicians who have become acquainted with its great success.

WHAT THE DOCTORS SAY

Drs. Wilson & Ward, physicians and druggists write from Centroville, Tenn.: "We purchased disca's Long Balsons, and it sells rapidly. We are tracticing physicians, as well as druggists, and also picastre in recommending a great remedy uch as we know this to be."

Dr. Lloyd, of Ohio, surgeon in the army during to war, from exposure, contracted consumption, espays: "I have no hesitancy in stating that it as by the use of your Ling Bulsam that I am new live and enjoying good health."

Nathaniel Harris, of Middleberry, Vt., says: have no doubt it will soon become a classical reme stal agent for the cure of all diseases of the Throat Bronchin! Tubes and Lungs."

Amos Woolly, M. D., of Kosciusca Co., Ind., says. For three years past I have used Allen's Ling Balana extensively in my practice, and I am satisfied there is no better medicine for lung diseases in use."

Physicians do not recommend a medicine which has no merit. What they say about ALLEN'S LUNG BALSAM

can be aken as a fact. Let all afflicted test it at once, and be convinced of its real merits. As an expectorant it has no equal. It is harmless to the most delicate child It contains no opium in any form. Directions accompany each bottle,

painful discharges, Night Sweats, Loss of Sperm
and all westes of the life principle, are within the
curative range of this Modern Chemistry, and a few
days' use will prove to any person using it for
either of these forms of discase its potent power to
cure them.

If the patient, daily becoming reduced by the
wastes and decomposition that is centionally progressing, succeeds in arresting these wastes, and
repairs the same with new interial made from
healthy blood—and this the SARSAPARILLIAN will
and flood secure—a cure is certain; for when once
this remedy commences its work of purification,
and succeeds in diminishing the loss of wastes, its
repairs will be rapid, and every day the patient
will feel himself growing better and stronger, the
food digesting better, appeting improving, and
flesh and weight increasing.

Not only does the Sarsaparialian Busolvent excel all known remedial agents in the cure of Chronic, Scrofalus, Constitutional, and Skia diseases;
